Thank you for picking a copy of my report.

I hope this short report brings you a lot of value and you find the information shared in here useful in your making money online journey.

It is my uttermost desire that the information shared in this book help you to achieve the exact reason I wrote it in the first place which is to show you steps to take to earn passively online, working from home.

Please be advised that income and results shown are not intended to serve as guarantees. In fact, I can't and do not make any guarantee about your ability to get results or earn any money with the information, tools, platform and strategies shared here. I don't know you and, besides, your results in life are up to you.

Agreed?

I just want to help you by revealing valuable information, strategies and same system I use that works for me and others doing this business which I believe should help you get same or even better result.

This is a very straight forward and actionable guide. This short report was created to provide competent and realistic results regarding the subject matter covered in a very easy to digest way.

Infact, I cut off unnecessary things which I think it will not be needed for now, so I put more focus on where to start and exactly what to do.

I am not sure what your income goal is...maybe it is an extra N20,000 a week or N300,000 a month or N500,000 or more in a month.

I have put this E-book together because I believe it should help you get result (earn income online) but you must know that this will only be possible **if you only take action**. No magic money business anywhere.

So, if we are on the same page, the let's continue...

So, if I were to recommend a passive income business model for any serious person who sees spending time in learning the right skills in a business as a good investment and ready to take action and has some little capital set aside like around N30k – N40k to set-up his business.

I will recommend what I call **Passive Affiliate Income Generator**.

What Is Passive Affiliate Income Generator And Why Do I Recommend It For You?

Passive Affiliate Income Generator entails setting up a smart system that helps you sell other people's product online effortlessly.

You do most of the hard work at the beginning and the system created makes the selling easy for you. And when you make sales anytime of

the day, you earn your own cut instantly even if it is 2am in the midnight. The system works 24/7 for you.

This business model is known as **Affiliate marketing with a system**.

Before I continue, let me briefly explain:

What Affiliate Marketing is:

Affiliate marketing is when you earn a commission by promoting other people's products. You find a valuable product you like, you promote it to those who want it and earn your commission on each sale you make.

And who is the Affiliate:

You - An individual that promote other people's products or services and get commission in return upon valid sales generated through you.

This is ~~not a multi-level~~ shenanigan you might be thinking about right away, I know you hate that.

I'll be explaining this further using a familiar illustration so that you can understand the concept perfectly.

Let take for instance...

That your friend at work needs help. She wants to lose her belly fat because it has become a serious threat to her self-esteem. And she is desperately looking for a genuine solution to her nightmare.

Then, you introduced her to a certified nutrition expert you know who then recommended a fat loss program to follow.

Let's say the fat loss program cost, say N15,000.

Your friend got the program, followed the diet plan exactly as instructed and boom, she got rid of her body fat in weeks.

Now for referring a paid customer to the nutrition expert, you are paid 50% commission instantly. Meaning, you are rewarded with **N7,500** immediately she paid for the program - as a way to thank you.

Imagine you are able to get 30 valid sales for that month. You already made **N225,000** extra cash into your bank. Isn't it?

You should get the concept better now?

The passive affiliate income business model I am about to explain to you can make it happen even without leaving your room or lose your self-respect to anyone (that is, if you'll take your time to learn and implement the genius marketing approach I will also share with you).

Now, how can we put this together in reality?

So, How Does This Work?

This time around, let me explain with my own story.

There is this affiliate platform I joined 2018 called **Expertnaire** that enables me to promote quality and valuable digital products.

These products are created by top experts in various niches in the industry like - *business, marketing, freelancing, health & wellness, blogging, personal development, travels and tours & lifestyle, etc...*

Digital products are usually in electronic format which can be downloaded, accessed or stored online; example includes PDF e-books, softwares, video tutorials, digital courses, online memberships, etc...

So, my first digital product I promoted from this Nigerian affiliate marketing platform (Expertnaire) was a weight loss training program created by a nutrition expert – Mr. Olu Aijotan who teaches people how to lose weight and get rid of belly fat using a special Nigerian diet.

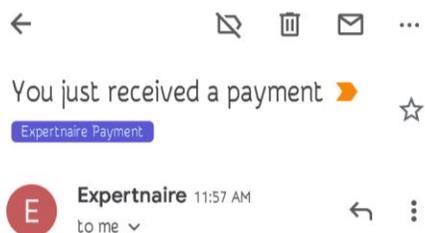

So I generated my special link, set-up my genius marketing system and I promoted it by running Facebook ads and one simple blog like that.

And my commission on every single product sale is **N6,250** on this particular digital product. And even up till today, if someone purchases that program through my link I make my money even while I sleep.

See commissions received from screenshot below.

Transaction Id	Product	Total Amount	Commission
XXXXXXXXXX	The 30 Day Business Blueprint	₦25,000.00	₦12,500.00
XXXXXXXXXX	The 30 Day Car Insurance Blueprint	₦11,000.00	₦6,600.00
XXXXXXXXXX	30 Day Body Transformation Program	₦12,500.00	₦6,250.00
XXXXXXXXXX	30 Day Body Transformation Program	₦12,500.00	₦6,250.00
XXXXXXXXXX	30 Day Body Transformation Program	₦12,500.00	₦6,250.00
XXXXXXXXXX	30 Day Body Transformation Program	₦12,500.00	₦6,250.00

I don't promote products with commission less than N6,000. Some digital products pay me more than that by the way.

Expertnaire is known to be a top rewarding affiliate platform in Nigeria with **a very high affiliate commission** on high valued digital products.

Hello Iyanuoluwa Taiwo

You've received a payment of **₦12,500.00**

Balance Information

This particular payment just came this Friday morning while writing this report. 20 valid sales of this product in a month will bring **N250,000**. Most of the new digital products you will find on their digital marketplace pays higher than N12,000 in

commissions to affiliates.

Some even pay as high as N25,000 in commission per single product. One of such high paying digital products is this Forex program below.

Hello Iyanuoluwa Taiwo

You've made a sale for FX Profitclass with Waju with Order ID **42021597419** successfully.

Order Information

Item	Quantity	Price	Total
FX Profitclass with Waju	1	₦100,000.00	₦100,000.00
Grand Total			₦100,000.00

You earn ₦25,000.00 commission on this sale.

Keep up the good work and keep on selling.

It is possible you find it unbelievable seeing people spend that much on a digital course or program. As you can see, it is **very achievable**. When it comes to buying of digital courses and programs, personally I have spent more than that on online masterminds.

So you getting huge commission on high end digital product is very possible especially with the right marketing system set-up for your offer. Don't worry I will share that with you in this report.

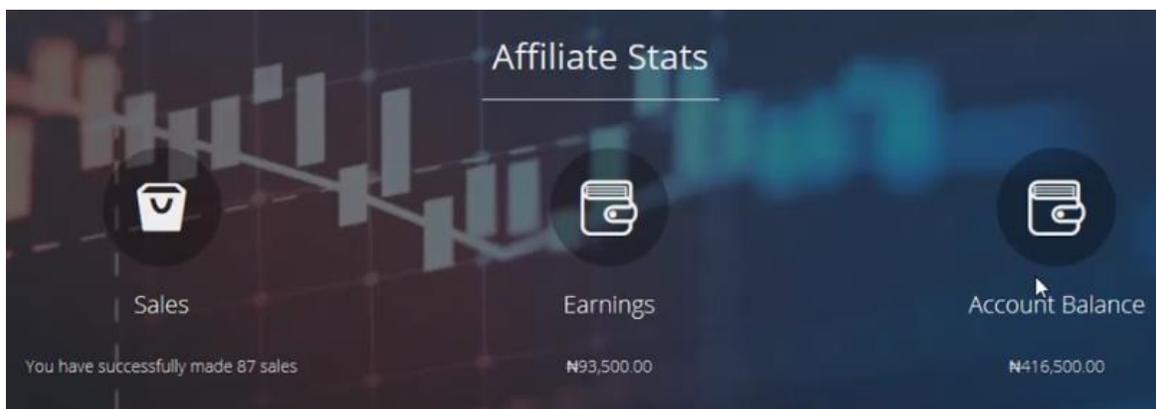

I won't make it sound like it is cheaply easy but you can do it honestly.

And I can tell it boldly to your face that this is by far an easy online business model ANYONE can use to make reasonable income day in day out online fast especially if your marketing system is done correctly.

Remember: You don't need to create any product of your own. Your own is to pick and promote any product of your choice from [Expertnaire.com](https://www.expertnaire.com) digital marketplace and that makes it easy for you.

Even let's say you set-up your account and your smart marketing system made you just 10 sales on a N12,500 commission product in a month, that's extra **N125,000**. That's not bad for a start.

I have some great guys in the business that averages 50k daily with this platform. Results like theirs below are not typical.

Note: I don't make 50k per day (at least as at the time I wrote this report). But this business model (selling other people's digital product) makes me **passive income on weekly basis** far better than some so called promising 9-to-5 jobs.

If you take a good look at what I have explained above, you should now have better idea of what this business model is all about.

But in case you haven't, let me spell it out clearly to you in steps.

Smart Passive Affiliate Income Generator Entails 5 Steps

Step #1: Become an Expertnaire affiliate.

Registration cost is N10k yearly signup fee. [You can register here.](#)

But there is only one way to get it for free for 2 years, you will discover that in what I am about to share with you later in this report.

Step #2: Pick Only Hot in Demand Products

My experience for years in affiliate marketing, I have discovered that certain niches and products perform best over and over again.

Product in categories like Health, Wealth, Relationship and Security sells better and fast. So I recommend you pick any hot-in-demand high paying product in this area too on their platform.

Nothing to also worry about by the way, Expertnaire announces top converting products to their affiliates. This will help you a lot.

Step #3: Create attraction marketing for your offer.

Attraction marketing is a way by which you set yourself apart from your competitors by making people love and want to buy through you.

And a very good approach to this is by educating your customer first. Don't just start sharing links anywhere you see. Earn their trust first through valuable information and insight you give.

Be authentic, be responsive, share useful insights and relevant information first before telling them about your offer. Don't just blast your link on your wall or spam every Facebook or WhatsApp group.

Whatever way or platform you will use to promote your offer, always remember this step #3. Don't forget.

Step #4: Use a system to promote your offer.

Craft a marketing system for your business. This is the only proven way to make sales passively any day, any time or any moment.

Let's be practical here. Now you are reading my book, isn't it? Even though I don't know what time you are reading this...Maybe I am even sleeping right now in real life but here I am teaching you something.

It was the system I have designed to promote my book that made this possible. Think about how you got this book, maybe from my blog or through Facebook Ads.

I only set it up once and the smart marketing system does the promotion over and over again.

So in your marketing exercise, I strongly advise that you implement an automated marketing system to promote your product or offer.

This is how you make more money even when you are sleeping or doing some other things. It saves you the stress of repeating same thing over and over again in a manual way.

I know you practically have no clue on this, I am aware. And this is why I have made available a free video training to guide you, step by step by copying the same marketing system I use.

I will share you the private link to this special video towards the end of the report, just continue reading. Don't jump any step.

And now let's move on to the last step which is ...

Step #5: Earn your commission happily.

There is nothing sweeter than this step 😊.

You earn instant commission on every valid sale you make through your special link for any digital product of your choice. Your commission could be up to 80% per sale depending on the product you choose to promote from your affiliate dashboard. Your commissions are paid directly to your bank on Fridays of the week.

And Here Is Why I Recommend It For You

- You don't have to create or source for any product.
- You can start promoting products immediately.
- All products on the platform are top-notch created by experts.
- It doesn't disturb your other line of business or work.
- It has the highest paying commission in Nigeria for now.
- All products are digital which can be accessed instantly upon payment by the end users, so your commissions are instant.
- Very trustworthy affiliate marketing platform.
- They have a very supportive Telegram group for instant help and support from the Admins and top affiliates.

As you can see, this business model is the fastest, simplest way to reach your money goal with the [Expertnaire](#) platform which I believe ANYONE can do especially if you are a beginner with zero experience.

As promising and highly rewarding it looks....

Yet, many people still fail at it because they ignore the core aspect of the business - **marketing** (*step #4*). This is why I want you to pay a very close attention to what I am about to share with you henceforth.

If you spam groups with your links or beg broke people who have no interest in your offer, you won't make sales, that's guaranteed.

Then the best approach is by setting up a proven marketing system for your offer, just like I talked about in step #4 above.

Overall, your ability to market and get your offer right in front of a lot of targeted audience will determine how much money you can make.

Your commitment in reading this book to this level is a sign that you are interested in this business and I want your success in this business.

Talking about the smart marketing system I use.

You will need to implement an attraction marketing technique that will get the right audience (hungry buyers) who crave for what you offer.

So here is the good news.

Right away, I want to help you further.

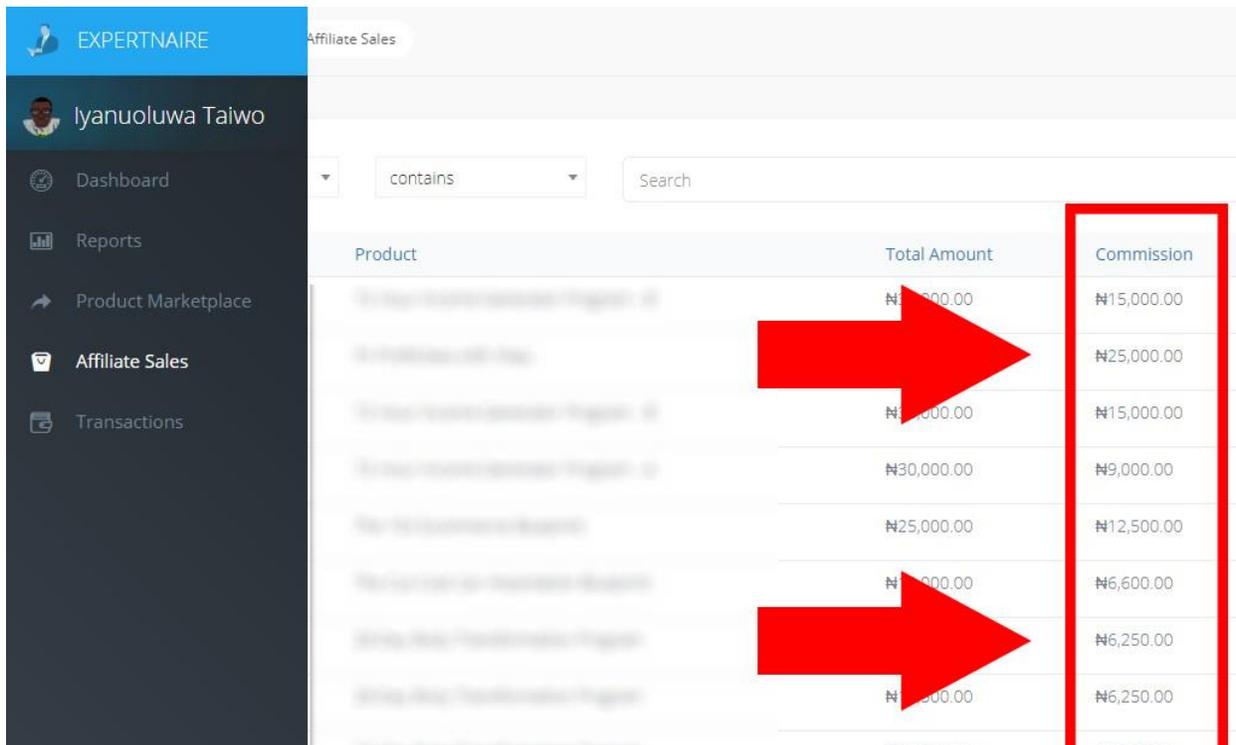

I want to show you exactly how to make sales on demand through the Expertnaire platform teaching you how to do it rightly, step by step.

I believe the best way to succeed faster promoting other people's digital product online is to get someone to coach you through all the steps I mentioned earlier, learning the right marketing system.

If you will like to get an in-depth training on it, then you should watch this practical video guide I shared with you below.

This is where you discover the exact marketing method I implement without having to beg anyone to come and buy, instead I get them to raise up their hands and sell to those who have the money to buy.

And I earn passive commissions like this...

Product	Total Amount	Commission
...	...	₦15,000.00
...	...	₦25,000.00
...	...	₦15,000.00
...	...	₦9,000.00
...	...	₦12,500.00
...	...	₦6,600.00
...	...	₦6,250.00
...	...	₦6,250.00
